Moar Windows & Doors

A family owned business creating beautiful handcrafted timber windows and doors for your home.

Our specialist tradesmen have been working in quality timber joinery since 1986 with our products being manufactured mainly from solid certified plantation Western Red Cedar, but we can cater for your choice of timber as well. All of our windows are handcrafted with traditional joinery techniques and made to the highest standards.

We have an extensive range of design and glass options to suit any architectural or individual style. Finished windows and doors are not stock piled because we want you to have the perfect window or door for your situation. Even our standard offerings could have your own personal preferences. The only things we will not compromise on are quality, performance and reliability.

We are known for creating beautiful, environmentally friendly windows. We offer a choice of styles and glazing and can work with you to ensure that your windows are complimentary to your home and ideals.

With all the choices available we understand that it can sometimes be a little overwhelming in deciding what you want. We offer a professional design service so that we can help you visualize your ideas as well as provide advice unique to your situation. All of our designs are computer generated to scale and are specified in detail to ensure accuracy and quality. We take the time to listen to you and work with you to ensure complete satisfaction and providing you with a unique, beautifully handcrafted window that will turn a house into a home.

WADIC

Licenced Bushfire Fabricator to BAL29

We've been training with WADIC and are now a Licenced Fabricator of WADIC BAL29 Proprietary Cedar Windows and Doors with Merbau sills.

Not only that but we were the very first licence issued!

One of the requirements to comply with the Standard AS3959 Construction of buildings in bush fire-prone areas is a tested System that meets AS1530 8.1 testing standard. The testing was undertaken with Exova Warrington Fire in Dandenong and took approximately 12 months to complete. The current certified range includes;

- Awning and Casement Windows
- Hinged Doors
- Bifold Window and Door Systems
- Insulated Glass Systems

Future testing will be carried out in 2014 to include:

- Sliding Doors and Window Systems
- Double Hung Window Systems

So come and see us today about having beautiful Western Red Cedar Windows and Doors for your home.

This certifies that

MOAR WINDOWS & DOORS

Awning And Casement Windows

Awning and Casement windows are amongst our most popular choices for window styles.

Awning windows are hinged from the top and wind out effortlessly from the bottom providing ventilation with the added protection against showers of rain. Casement windows are side hinged and open outwards 90 degrees to provide excellent ventilation.

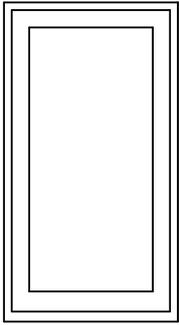

When closed these styles of windows provide outstanding air tightness, helping to create a thermally efficient home. We use Truth Hardware and seals, which also assists in creating an airtight seal in the closed position. Truth Hardware also offers an attractive range of colours for the handles to suit your home.

Not only are we able to offer you a number of window combinations featuring these styles, we also have a number of sash styles available to make these beautiful windows even more unique.

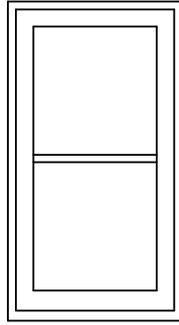

Whether a stand-alone window or as part of a combination, Awning and Casements are highly functional and simply stunning.

Double Hung Windows

Double Hung windows are a timeless classic that bring elegance to any home.

Our first choice of mechanism for this style of window is Megajambliners, which provide ease of use as well as allowing the sashes to easily be removed for cleaning and maintenance where required. The megajambliners, when combined with double glazing, also provide an excellent seal against drafts and limit the amount movement of the sashes in strong winds.

However should you require Spiral Balances or Cord and Weight systems, we are happy to accommodate your needs.

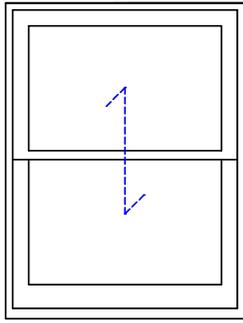

Not only are we able to offer you a number of window combinations featuring these styles, we also have a number of sash styles available to make these beautiful windows even more unique.

Whether a stand-alone window or as part of a combination, the double hung are highly functional and simply stunning.

Sliding Windows

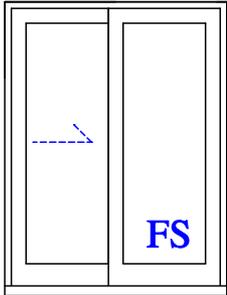

A modern classic that will suit any style of home.

With ease of use the sliding window has become a modern favourite.

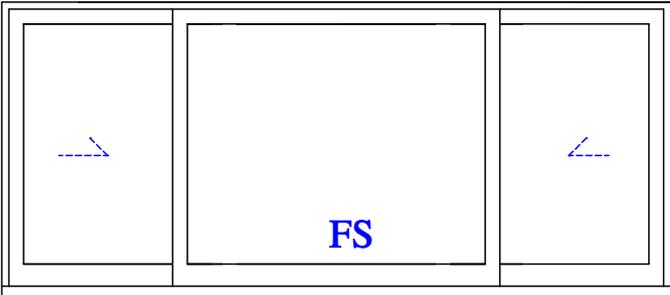

One of the highlights of our sliding window is the unique sliding screen, which allows the window to be used as a servery.
